A PERFECT PAIR

Quality glove options
for the task at hand

FOR THOSE WHO ENSURE HEALTH AND CREATE BEAUTIFUL SMILES

Our proven, high quality, single-use infection prevention and control solutions for PPE, sterilization, office essentials, and preventive care are thoughtfully designed for simplicity and comfort without compromise to safety and clinical efficacy.

Making each day in your practice a little easier.

Medicom was founded in 1988 in response to the urgent need for medical gloves for healthcare professionals during the global HIV crisis.

Understanding the critical role that quality gloves play in safety and protection against cross-contamination, we have continued to develop a diverse portfolio of premium medical examination and surgical glove options designed to meet the individual clinical needs and preferences.

Backed by over 35 years of expertise, we invite you to begin your journey here to finding your perfect pair.

CHOOSING THE RIGHT GLOVES

Protection and comfort

When it comes to hand protection, it is important to choose the right type of glove for each specific task or application. Our broad selection of powder-free medical examination and surgical gloves is innovatively designed to ensure superior protection and the comfort you deserve.

Our examination gloves feature cutting-edge technologies and special formulations to meet the evolving needs of dental professionals and their patients.

Our surgical offering includes synthetic alternatives that offer the benefits of latex gloves without the risks to patients and staff who suffer from Type I (latex) allergies.

Which material best fits your needs?

Each glove material has unique strengths and limitations. The following descriptions are representative of basic material characteristics.

Glove Attribute	Nitrile (Exam)	Polychloroprene (Exam/Surgical)	Polyisoprene (Surgical)	Latex (Exam/Surgical)	Vinyl (Exam)
Level of Barrier Protection	Excellent	Excellent	Excellent	Excellent	Poor
Strength and Durability	Excellent	Excellent	Very Good	Excellent	Poor
Puncture Resistance	Excellent	Good	Good	Very Good	Poor
Elasticity	Very Good	Excellent	Excellent	Excellent	Fair to Poor
Comfort and Fit	Very Good	Very Good	Excellent	Excellent	Fair
Allergy Potential	Low	Low	Low	High	Very Low

Individual glove performance may vary.

FIT AND FEEL

Grip

Gloves with textured fingertips ensure a secure grip, even when wet. Fully textured gloves provide ultimate grip.

Weight/Thickness

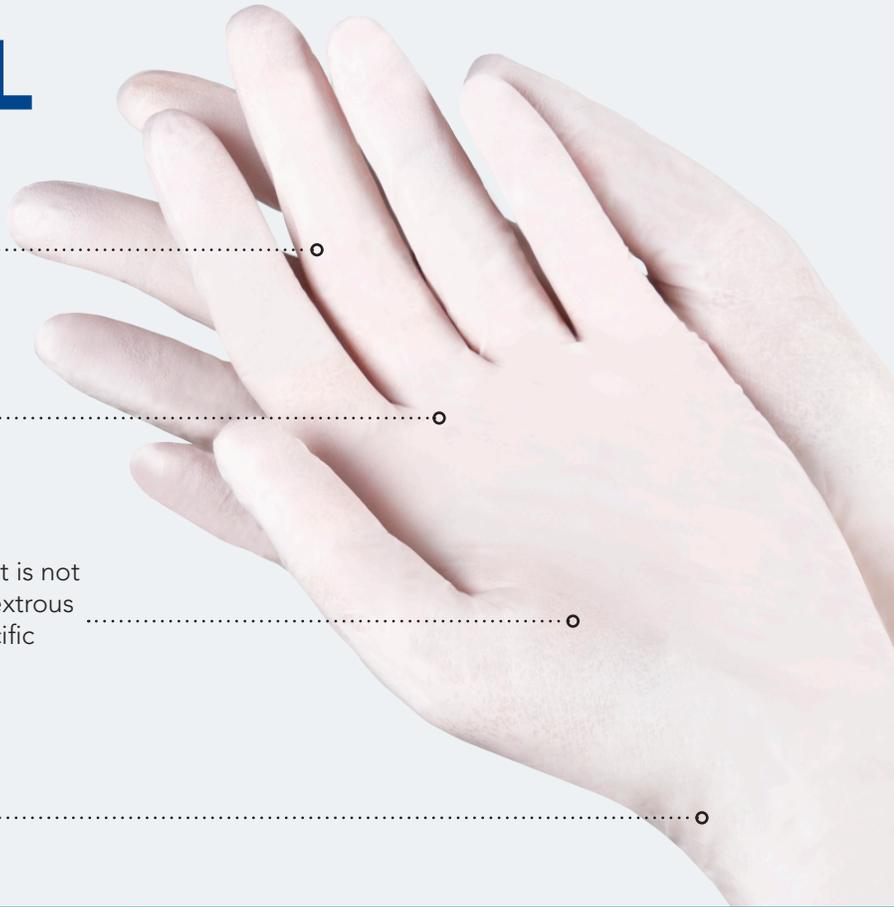

Glove weight and thickness should match the level of protection and tactile sensitivity required for specific tasks.

Size

The right size of glove will ensure a comfortable fit that is not too snug or too loose. Examination gloves are ambidextrous for added convenience. Surgical gloves are hand-specific (right and left) and made in more precise sizing.

Cuffs

Beaded cuffs on gloves prevent roll-down and protect against fluid drips. Extended cuffs offer additional coverage for wrists and forearms.

CHEMO SAFE

Tested and approved for use with chemotherapy drugs.

FENTANYL SAFE

Tested and approved for use with fentanyl.

CHEMICAL RESISTANT

Tested and approved for use with certain chemicals.

HAND HEALTH

Infused with moisturizing agents to soothe and rejuvenate dry hands.

NO ACCELERATORS ADDED

Helps reduce the risk of Type IV allergies caused by chemical accelerators commonly used in the manufacturing process.

ANTIMICROBIAL TECHNOLOGY

Helps prevent cross-contamination by eliminating microbes within five minutes of contact with the exterior of the glove.

Consider the intended use of your gloves

Medical examination gloves are ideal for patient examinations, blood tests, and patient care. Surgical gloves must be used for sterile procedures.

For handling drugs, chemical components or food, you must use gloves that comply with industry standards for these tasks.

The importance of fit

Wearing properly fitting gloves is crucial to working safely and efficiently. Gloves that are too tight can tear easily, contribute to hand fatigue and cause injuries like carpal tunnel syndrome. Gloves that are too loose decrease tactile sensitivity and manual dexterity and increase the risk of cross-contamination.

NON-LATEX STERILE SURGICAL GLOVES

Offering enhanced comfort, safety and performance for surgical procedures

Our synthetic polychloroprene and polyisoprene gloves deliver the performance of natural rubber latex without the risk of Type I allergies or latex sensitization.

- Produced on ergonomically-designed formers for enhanced comfort and fit
- Polymer coating for easy damp and dry-hand donning
- Available in several thickness options to suit your needs

Our non-latex sterile surgical line up can be used in a variety of procedures.*

Need a higher level of protection?

Wearing two pairs of surgical gloves, or “double gloving,” can help reduce the risk of cross-contamination in the operating room. The underglove provides an extra layer of protection, especially if the outer glove is punctured. Choosing undergloves in contrasting colors also makes it easier to detect perforations.

Do you have a latex allergy/sensitivity, chemical allergy or contact dermatitis?

Choosing synthetic gloves can help avoid potentially severe allergic reactions to latex. Those experiencing adverse reactions to synthetic gloves may benefit from switching to gloves not made with chemical accelerators. Try Medicom nitrile medical examination gloves with no accelerators added.

GET TO KNOW YOUR GLOVES

Non-Sterile Medical Examination Gloves

POLYCHLOROPRENE Ocean Pacific® NeoNatural

Get the best of both worlds

Combines the softness of latex with the strength of nitrile for reliable protection without sacrificing comfort or dexterity.

Item	1228	
Colour	Emerald ●	
Weight	6 g	
Thickness: mm (mil)	Finger	Palm
	0.11 (4.33)	0.08 (3.15)
Size	XS, S, M, L, XL	
Packaging	100 gloves/box 10 boxes/case	
Grip	Textured fingertips	

NITRILE Ocean Pacific® Eclipse

Precise fit for precise tasks

Thin and stretchy glove that conforms to hands to help minimize fatigue and maximize tactility.

Item	OP-EC

Size	S, M, L, XL	
Packaging	100 gloves/box 10 boxes/case	
Grip	Smooth texture	

Sterile Surgical Gloves

POLYCHLOROPRENE AssureTouch™ Guard Micro

Polychloroprene combines nitrile-like strength with latex-like comfort, without the risks of Type I allergies or latex sensitization. Ideal for procedures requiring tactile sensitivity. Micro thickness allows for double gloving.

Item	1144	
Colour	Natural White ○	
Weight	9.8 g	
Thickness: mm (mil)	Finger 0.13 (5.12)	Palm 0.11 (4.33)
Size	5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9	
Packaging	1 pair/pouch 50 pairs/box 4 boxes/case	
Grip	Textured palm	

POLYCHLOROPRENE AssureTouch™ Sense

Polychloroprene combines nitrile-like strength with latex-like comfort, without the risks of Type I allergies or latex sensitization. Standard thickness makes them suitable for a wide range of surgical procedures.

Item	1145	
Colour	Natural White ○	
Weight	13 g	
Thickness: mm (mil)	Finger 0.17 (6.69)	Palm 0.15 (5.91)
Size	5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9	
Packaging	1 pair/pouch 50 pairs/box 4 boxes/case	
Grip	Textured palm	

POLYCHLOROPRENE AssureTouch™ Defend

Polychloroprene combines nitrile-like strength with latex-like comfort, without the risks of Type I allergies or latex sensitization. Mint green colour aids in instant identification as non-latex and quicker detection of tears when double gloving. Standard thickness makes them suitable for a wide range of surgical procedures.

Item	1146	
Colour	Mint Green ○	
Weight	13.5 g	
Thickness: mm (mil)	Finger 0.17 (6.69)	Palm 0.15 (5.91)
Size	5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9	
Packaging	1 pair/pouch 50 pairs/box 4 boxes/case	
Grip	Textured palm	

POLYISOPRENE AssureTouch™ React

Polyisoprene offers latex-like elasticity and comfort without the risks of Type I allergies or latex sensitization. Thiuram and DPG-free for a reduced risk of Type IV chemical allergies. Standard thickness makes them suitable for a wide range of surgical procedures.

Item	1147	
Colour	Natural White ○	
Weight	11.9 g	
Thickness: mm (mil)	Finger 0.18 (7.09)	Palm 0.17 (6.69)
Size	5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9	
Packaging	1 pair/pouch 50 pairs/box 4 boxes/case	
Grip	Textured palm
